

School Bus Stop Locations

Recent Information shared by Polk County

The Board was recently received information from the Polk County Schools Transportation Department that when the Community installed the Pedestrian Gate at the Gate on the Corner of Bates Road and Minnehaha Circle, the School Commission approved for this location to become a designated Bus Stop location for Calabay Parc now that proper walking access was created.

For the safety of all our young Residents, the Board is asking for Parents to make sure that a Pedestrian Gate key is given for children to access the gate properly and avoid any possible safety issues with using the vehicle gate.

As this location is a confirmed access point for school bus location, all cards will continue to have access to the Pedestrian gate with **NO EXCEPTIONS**. All cards will continue to function at this gate even if clubhouse access is not available.
